Kids Can Cook is a language and culinary camp for children who want to experience the joy of cooking – in English! It teaches children how to select and prepare healthier food options and how to be safe in the kitchen. The theme of the week will be “Dinosaurs”, so get ready for lots of surprises! Every day we will work on a different recipe and we will taste our culinary creations. We will sing songs and play vocabulary games, as well as get busy with fun arts and crafts projects.
